YOUR LAGNA

You have a Vrischika or Scorpio Lagna Kundli. Your Rashi is Leo or Simha. There are some general traits of people who are born in this Lagna. People born in this Lagna are usually Focused, concentrated, of strong will power, self-made, passionate, with strong likes and dislikes, unyielding, uncompromising, of penetrating mind, hard to influence, powerful, forceful, invincible, dominating, ready to confront any opposition or obstacle on his way, of fixed views, faithful, of subtle mind, complex moods, fertile imagination, sharp, keen, cunning, good detective, interested in esoteric studies, solving the mysteries of life, concerned with his/her own work only. This Rashi is ruled by Mars and in astrology, Mars is the planet of energy, action, and desire. It is the survival instinct and can be thought of as the “leftover” animal nature of man. Mars is also said to be a commander and is always ready for fights no matter what.

Your Lagna is very important and is first house of your Kundli. The first house in astrology is known as the ascendant house. This tells you more about your identity and the image that you portray to the world. It also influences the planets present in this house which is reflected in your persona. So one can know about you by looking at your first house.

YOU HAVE ONE OF THE PANCH MAHAPURUSH RAJYOGA IN YOUR KUNDLI

We are very glad to tell you that your Lagnesh (Mars) or your Ascendant lord is in a very good position and is very good for you. You have RUCHAK

RAJYOGA in your kundli. Why ? Its because your Mars is in your first house in his own Sign or Rashi. Though this placement of mars makes you **Maanglik(You have Mangal Dosh In Your Kundli)**, If in a horoscope, Mars is situated in the Kendra or Angular houses (first, fourth, seventh, or tenth house), in its own zodiac sign Aries and Scorpio or in exalted zodiac sign that is Capricorn, then Ruchaka yoga is formed in the kundli.

As Mars is considered the son of earth, this rajayoga in kundli gives the natives good amount of property. When Ruchak rajyog is formed in a horoscope, the person has mightiness, boldness, courage, fame, bravery, prestige, valor, honor, glory and integrity. They are very hard working. Such people can become good army officers, property dealers, surgeons, detectives, sports players, geographers, surgical instrument manufactures and other related professionals.

Your MARS is aspecting 4, 7 and 8th house and therefore will show it's influence on those houses too. In it's Mahadasha and Antardasha you can feel it's influence not only on your personality but also it will affect your home, property, spouse, relationships, business and can also cause some sudden transformations. But being a good planet for your kundli as it's your Lagnesh or Ascendant Lord it's safe to assume that it will bring positive changes in your life. Further more your Saturn is aspecting your Lagna too . He will also influence your Personality and since it's not a friendly aspect he can cause some issues with your Personality and health. Mars and Saturn Mutual Aspect is not considered good and can cause some issues.

YOUR MERCURY

Let us now move towards your Mercury. In your Kundli Mercury is situated in third house. Now what does third house even represent ? The third House is that of communication, which by extension includes one's immediate environment: siblings, neighbors, short journeys, and all forms of transportation. The 3rd house also includes the intellect, the lower mind (details and small bits of information as opposed to the higher mind in 9th house), thinking patterns, and early education (before college). Communication includes messages, deliveries, gossip, phone calls, visits, reading and writing. In your kundli Mercury is lord of 8th as well as 11th house. Due to it's lordship of 8th house you can sometimes experience some sudden transformation in your life due to your communication, short travels or siblings. These transformations can be good or bad but surely they will teach you a valuable

lesson. But on the other hand you can also make money due to your short travels, communication and can get money from your siblings too. This is because mercury is also lord of 11th house which signifies your source of income. Mercury himself is a significator of intelligence. Mercury not only rules communication, it represents coordination. Thought processes, ideas, and sensory information from both conscious and unconscious sources all need to be coordinated and understood. This means that through these you will earn your money. Mercury being in your third house and in his friendly sign is overall a good placement and will help you to be recognized in your society due to your speech, intelligence and communication skills. Mercury is also aspecting 9th house of your kundli. The ninth House refers to philosophy, religion, law, learning, higher education (as opposed to early education by the 3rd House), ethics, morals, long journeys, travel, foreign countries and interests, spiritual urges, dreams, visions, higher mind, ideas, understanding and wisdom, books, publishing, ceremonies, and rituals. This is the House of big thoughts and big ideas. So it will also influence your 9th house with full power during it Mahadasha or Antardasha. However the influence won't be much beneficial since Moon is its enemy and 9th house lord is moon.

YOUR SUN

It represents the "Father" in native's birth chart. It indicates "Husband" in woman's chart. It represents the authoritative position in service. It shows the government, head or administrative position in society. It stands out as a skipper or leader in games. It is also a significator of your soul and hence a god sun in a kundli is always desirable. Sun is given a very special significance in our astrology and is also considered as the King Of Stars. In your kundli Sun is in 4th house. Now let's try to know that what does 4th house even represent ? The fourth House refers to the home and everything associated with it (both the childhood home & the current home): family, land, personal foundations (inner emotional security), your root. Also 4th house is also connected to your mother. Even though sun is sitting in his enemy sign in your 4th house it's not something you should be worried about. This placement shows that you will get land, property and vehicle comfort from your father as well as government but you will need to work hard for that. The chances of you earning your property through government job is also high since sun is also the lord of 10th house in your kundli and is aspecting his own house. Therefore we recommend you to try Government jobs as your chances of getting one is pretty high. Your mother will also reap the fruits of your hardwork since you will make sure to take good care of her and will provide her with a good house, vehicle etc. Once again, we would like to tell you that the sun is in an enemy sign and that will make you work hard to achieve your goals. But once you set your goals, there will be no stopping you.

YOUR VENUS

“Love and money” is actually a simplistic interpretation of Venus. Venus rules our sentiments, what we value, and the pleasure we take in life. Grace, charm, and beauty are all ruled by Venus. Through Venus, we learn about our tastes, pleasures, artistic inclinations, and what makes us happy. In your kundli Venus is in 5th house and rules 7th as well as 12th house. It’s in exalted state however also retrograde. The fifth House refers to children, creativity, and the pursuit of pleasure. This includes personal interests, love affairs, sports, hobbies, speculation, risk-taking, teaching, drama, creative self-expression, love given, gambling. The 5th house is all about you being yourself and enjoying it. Your 5th house is ruled by Jupiter and Jupiter and Venus are Enemies but overall it’s a good placement. Your 5th house also represents your education (higher education represented by 9th house) and Venus here will make sure that you get a good education. Your Venus is also aspecting 11th house and this is again good since Venus will make sure that you earn ample money and you will like to spend your money on aesthetic items. You like to flaunt your Money as well and this is something you should work on. Here we also have to remember that your Venus is in 5th house and is ruling over 12th as well as 7th house. Spending money way too much on materialistic possession can cause trouble for you therefore you should spend money after thinking deeply. Also Venus will definitely play a major role in your marriage and love life. Getting married or finding a love interest during it’s Mahadasha or Antardasha is highly likely but it will also depend upon Jupiter as well as Saturn as they are in your 7th house. Combination of Mahadasha and Antardasha of any of these three planets will trigger the events for your love life for sure.

You have a **Retrograde** Venus and it’s **Exalted** (UCCHA KA SHUKRA) so you may experience little obstacles in above events mentioned. We believe that an exalted planet when retrograde can cause some troubles too. A good planet when retrograde starts giving ill results sometimes. And Venus is already not a good planet for your Lagna. It’s a little hard to predict the true nature of Venus for your Kundli since various astrologers have various views regarding the retrograde nature of Planets.

We would also like to inform that there’s a PARIVARTAN YOGA in your KUNDLI. When two lords exchange their houses then this YOGA is formed. In your Kundli this yoga is getting created by VENUS and JUPITER. This is a good yoga and will bring improvement in your 5th as well as 7th house results.

MAHA PARIVARTAN YOGA

This is an auspicious Parivartan Yoga where lords of Kendra houses i.e 1st, 4th, 7th and 10th makes an exchange between with lord of 5th, 9th, 2nd or 11th houses. Your lord of 5th and 10th are involved and thus you have this Yoga.

YOUR JUPITER

Jupiter has generally been associated with good luck and bounty. Optimism and growth (including mental and spiritual growth) come under its rule. On the up side, Jupiter is associated with a sense of humor, good will, and mercy. The more negative manifestations of Jupiter include blind optimism, excess, and overindulgence. Irresponsibility that results from blind optimism, not ill will, can be displayed. Jupiter however is a natural benefic and even if it's badly placed, it doesn't try to harm an individual the way malefic planets do. On the other hand a well placed Jupiter is very good for you. In your chart Jupiter is in 7th house. The seventh House is sometimes referred to as the House of marriage, but it encompasses all one-to-one relationships: marriage, business partnerships, contracts, cooperative relationships, and also divorce, separation, quarrels, open enemies, and law suits. But mostly your seventh house is usually seen for Spouse and Business. How will be your married life ? When will you get married ? 7th house answers many questions like these. Jupiter in 7th is a good placement. Your spouse will be learned and will be charming. However there's also influence of Saturn here so there can be a little delay in marriage. There can be some issues in marriage life too since Mars is also aspecting 7th house where Saturn is sitting. Saturn is Mars's Enemy. Not only that your Saturn is also aspecting your Lagna i.e Mars and their Mutual aspect is not really considered good. Coming back to your Jupiter, it's aspecting your Lagna (1st), 11th and 3rd house so during it's Dasha you can see expansion in these three houses. Which means expansion in your courage, more travels, good time for you siblings, money related problems getting solved, personality getting much better etc. Since Jupiter is a lot stronger than Saturn when it comes to Degrees therefore you can expect Jupiter to dominate Saturn. But on the other hand Saturn is in his friend's house whereas Jupiter is in his Enemy's house. Overall we believe you should get positive results more.

YOUR MOON

The Moon, in Astrology, is the ruler of Cancer. The Moon represents our deepest personal needs, our basic habits and reactions, and our unconscious. Moon represents our Mind and also our Mother. Moon is given a lot of importance in astrology. It is said that if moon is badly placed or affected by malefic than the individual has to struggle a lot in his life. It's simply because Moon is our Mind and if our mind is anxious and stressed then we can never really get success. In your Kundli your moon is lord of 9th house. As already mentioned the ninth House refers to philosophy, religion, law, learning, higher education (as opposed to early education by the 3rd House), ethics, morals, long journeys, travel, foreign countries and interests, spiritual urges, dreams, visions, higher mind, ideas, understanding and wisdom, books, publishing, ceremonies, and rituals. This is the House of big thoughts and big ideas. Your moon itself is in 10th house. Your moon is in Leo sign therefore it's also your Rashi.

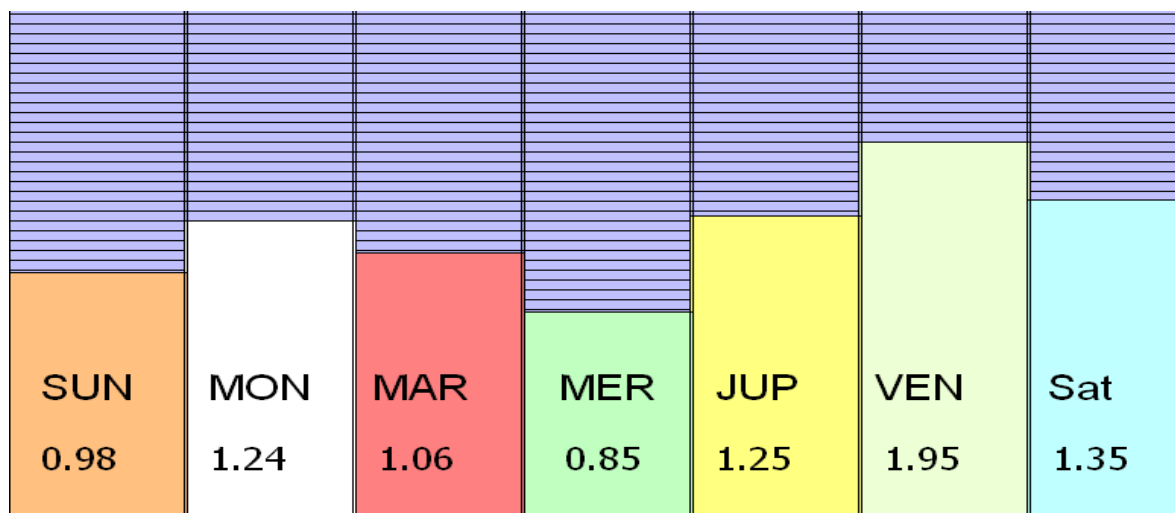

We are very glad to inform you that you have Kendra Trikona Rajyoga in your Kundli. Whenever the lord of Trine house makes relation with Kendra houses this Yoga is formed. Lord of 9th house in 10th is very good. Kendra Trikona Rajyoga gives wealth, prosperity, property, success, joyfulness, luxury, high spirits, peace in family life, good career, high position, contentment, name, and fame to the individual.

The tenth House is the House of status, honor, community power, prestige, reputation, and professional career. In our society, this includes financial success, but only as it relates to community power and prestige. It's not about gaining "material stuff" as it is in the 2nd house. The 10th house wants success for the sake of honor and social status. Moon in 10th house will aspect your 4th house about which we have already discussed before. This placement is good for Government jobs.

RAHU and KETU

Ketu indicates maternal grandfather. This node is also indicator of imprisonment. Ketu is indicator for all awry activities like magical power, fire or accidents, changing events, and broken relations. Fire, accidents or injury, renunciation, bad nature to have pleasure with other ladies, sour experience, salvation, punishment, imprisonment, fear complex and allergy are attributed to Ketu. It is very strong planet like Rahu when exalted. The mystery planet Rahu is considered bodiless, hence he doesn't know how much he wants something. He remains unsatisfied due to his bodiless head. He has the passion and wants more. Rahu creates obsession within the person's mind. He does not have a physical body, which is why he is called the shadow planet. Your Ketu in second house can cause some troubles when it comes to saving money and you should not take loans for tasks for your own enjoyment. This can cause some serious consequences for you. Whereas you Rahu is in 6th house. Rahu in 6th is considered good. You can gain through ancestral property, legacies and gifts. Inflow of money through science and learning. Increase in possession. Your Rahu overall is in a good position. Further Rahu and Ketu have three aspects. You Rahu aspects 12th, 2nd and 4th house. Your Ketu aspects 6th, 8th and 10th house.

SHADABALA

Highest : Venus, Lowest : Mercury

According to Shadabala, Venus will be able to deliver most good results (Not fully since it's not good for Vrischika Lagna) whereas Mercury will deliver less positive results.

Currently you are undergoing your Mars Mahadasha. Expect mixed results in this Mahadasha. Sometimes good and sometimes bad. You need to focus on

your work and make sure you stay determined. Also try to avoid anger as much as possible. Don't do anything risky during this dasha as the results can be disappointing. Health should always be given importance as Mars is also the lord of your 6th house. During this period you will be highly courageous and bold.

For Vrischika Lagna Saturn, Mercury and Venus are not considered as good planets so special care must be taken during their Dashas. Mars will somewhat give positive results, but health must be taken seriously. Jupiter, sun and Moon are good. Rahu and Ketu will give results according to their Placement.

Rahu Mahadasha Prediction : Overall this Mahadasha will prove to be good for you. No doubt you will get various obstacles in your way but this period will be good for you and you will achieve success for sure. Make sure your lifestyle remains healthy and take good care of yourself. During this period keep realistic goals and don't get carried away by dreams that you can't even work on. Rahu sometimes create illusions and therefore it is very important to work on projects that you can complete and goals that you can accomplish.

Jupiter Mahadasha Prediction : Once again this period will be good for you. Not only will you notice positive change in your personality, you will acquire knowledge from various sources and will become more learned. People around you will start praising and following you. They will try to seek your advice. Your life partner will be very helpful to you during this stage and you will feel at ease due to her. You will earn respect from people and will be radiating positivity.

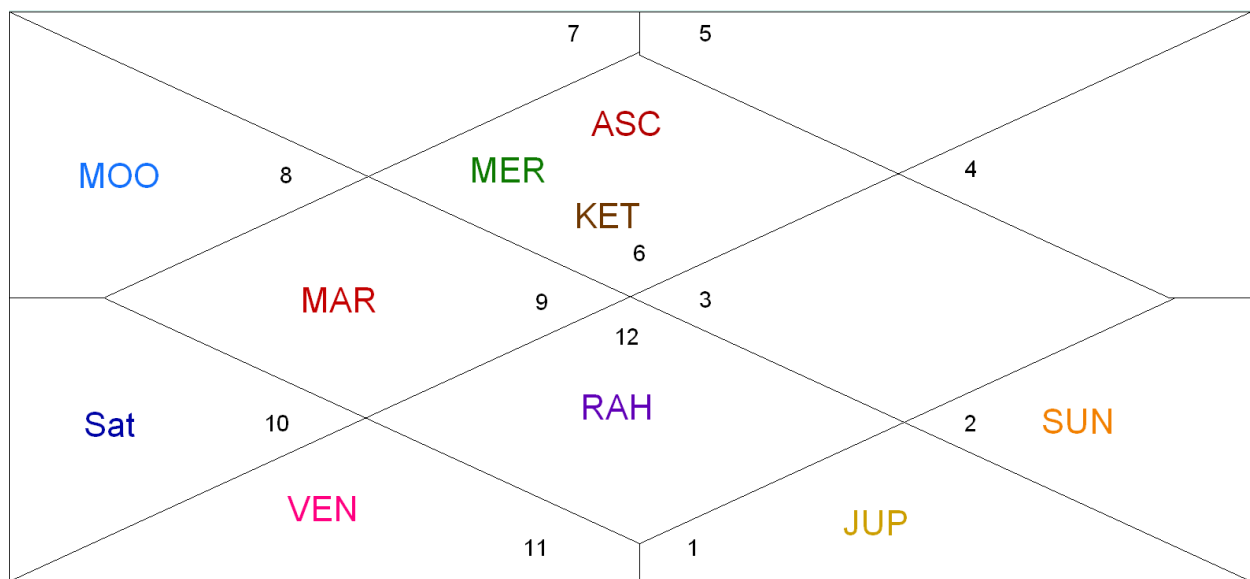

(The 99 Rs. Package only includes about two upcoming dashas.)

NAVAMSA

Now comes another important chart which should also be taken into consideration when analyzing your chart. This chart is called the Navamsa Chart and it's so important that many astrologers consider it to

be second most important chart after Lagna Kundli. Let's assume that you have a planet that is not well placed in your Lagna Kundli but is exalted or is in good state in Navamsa. In that case the planet will get strength and we can conclude that during that planet's dasha an individual won't get bad results but somewhat normal results. But Lagna Kundli should always be given the most importance!

YOUR NAVAMSA KUNDLI

All the planets in your Navamsa are in good placements and are imparting strength to your Lagna Kundli.

This chart is a way of knowing that which planet will have the most influence on your specific houses in Kundli. For example through above chart we can see that in Scorpio or Vrischik Rashi MERCURY AND JUPITER have contributed 6 points each. Therefore you will display traits of these planets in your personality as your ascendant Rashi is Scorpio. You will be learned and intelligent. In a similar way other deductions can be made. The video package will include

discussion on this too however to talk about every house and Planet using Ashtakvarga is beyond the scope of this package.
